

Alaska Weeds of Concern
list for weed-free certification standards
2012

During the certification process, the plants on the Alaska Weeds of Concern list are surveyed for **in addition to** the nationally recognized North American Weed Management Association's (NAWMA) Noxious Weed List. In order to have products certified as weed-free, no propagative parts of any of these listed species may be present.

Forage

Hempnettle (*Galeopsis* spp.)
Bird vetch (*Vicia cracca*)
Black bindweed/wild buckwheat (*Polygonum convolvulus*)
Narrowleaf hawksbeard (*Crepis tectorum*)
Hawkbit/fall dandelion (*Leontodon autumnalis*)
Narrowleaf hawkweed (*Hieracium umbellatum*)
Corn spurry (*Spergula arvensis*)

Gravel

White sweetclover (*Melilotus alba*)
Narrowleaf hawkweed (*Hieracium umbellatum*)
Narrowleaf hawksbeard (*Crepis tectorum*)
Reed canarygrass (*Phalaris arundinacea*)
Japanese knotweed (*Polygonum cuspidatum*)
Bird vetch (*Vicia cracca*)
Hawkbit/fall dandelion (*Leontodon autumnalis*)
Hempnettle (*Galeopsis* spp.)
Black bindweed/wild buckwheat (*Polygonum convolvulus*)
Bohemian Knotweed (*Polygonum sachalinense*)
Giant Knotweed (*Polygonum x bohemicum*)
