AMCO Approved Marijuana Products with Hemp Approved Ingredients

Marijuana products may include CBD or other cannabinoids in a raw, non coverted state. This is referred to as a ratio product, which contains both THC (derived from lawfully grown marijuana approved through the Alcohol & Marijuana Control Office, AMCO) and CBD or other cannabinoids. CBD in its natual state in a marijuana product provides a non-intoxicating effect that some consumers desire. Hemp derived delta-9 products(<0.3% THC) cannot be approved through the hemp program or diverted to AMCO for approval.
